Quality and Service You Can Trust

Doing business with the tri-state area for over 100 years; since 1912.

CONTACT US

Site Development

LaMay and Sons, Inc. is the professional full service excavating company you can depend on. We have knowledgeable staff ready to work with you from beginning to end on your excavation needs.

Drainage and Excavation

Drainage systems have become complex plans which not only permit a property owner or site manager to dispose of unwanted or runoff water but minimize the impact of this water on other properties which may be miles away.

Sanitary|Sewers|Cesspools

Our team offers expert storm water and sanitary sewer installation services. We handle all aspects of sewer installation which include excavation for the sewage system the sewage system the sewer installation, and repairs and maintenance afterward, if necessary.

What Our Clients Say...

"Our Beach was badly damages by Hurricane Sandy, and LaMay came in and brought it back to life. They have also come back seasons after to level the sand for us before our season began. Such a professional company and I would highly recommend them."
